

CAREER PROFILE

I am a University Degree in Technical Programming having graduated from the UTN of Mar del Plata corresponding to the career of "University Technician in Programming". I made a Supervised Professional Practice (SPP) in the Infosis company of 200 hours duration where I was trained in the workplace and development in Java. I have knowledge of various languages like C, Java, PHP and Javascript. Layout using HTML, CSS and Bootstrap and also data persistence using relational database with MySQL. I am also trained in the use of Git - Github and the use of agile methodologies such as SCRUM and Kanban. I am currently training in React in a SkillFactory in the company Avalith.

EXPERIENCES

Supervised Professional Practice (SPP)

oct 2021 - Jan 2022

Infosis, Mar del Plata

Realization of a supervised professional practice (SPP) in the company Infosis - Mar del Plata 200Hs duration. I was trained on agile methodologies, the management of the infrastructure, automation, database, testing (QA) and especially the development area where we work with Java using Maven and Vaadin. Also the work using Jira for the management of incidents and git/gitlab.
